Unit 2

MarkLogic Server Architecture

Explore Inside MarkLogic Server

Exercise 1: Explore Inside MarkLogic Server

In this exercise you will review the whitepaper "Inside MarkLogic Server" to help you become more familiar with MarkLogic Server architecture components.

1. On your training VM navigate to **c:\mls-developer-node\unit02** and open the Inside MarkLogic Server PDF.

2. Read the following topics on page 10 and 11:

   - High Performance

   - Clustered

   - Database Server

3. Read the following topics on page 31:

   - What's On Disk: Databases, Forests, Stands

4. On your local machine, download a copy of Inside MarkLogic Server to use as a future reference:

   - http://developer.marklogic.com/inside-marklogic
